RESULTS OF THE GOVERNOR'S VISIT.

Advised St. Louis Democrats Not to Foment Fights in State Affairs.

NO CHOICE OF CANDIDATES.

Dockery Talked With Some of His Friends, but Had No Conference Over Any Special Movement.

Politicians who are posted on the developments of the past week in State affairs declare that the result of Governor Dockery's visit to St. Louis Friday and Saturday will be a more thorough harmony in local politics. To friends the Governor said that he came here with the intention of bringing about better relations among conflicting elements on the eve of a general and State campaign.

When he left the city he thought that his purpose had been at least materially accomplished. While he was here he saw several of the local leaders and talked over the situation with them. He frankly told them that he was not taking the part of any one candidate for the governorship, but that the sooner the practical politicians in St. Louis understood the necessity for harmonious relations all along the line the better for everybody concerned.

The story printed in a Republican organ that Governor Dockery came here in the interests of James A. Reed for Governor was indubious to those familiar with the facts.

GOVERNOR'S HANDS OFF.

Friday afternoon and evening in Faust's cafe. He did not confer with William J. Flynn, Frank N. Kleber, John Dolan and E. E. Quinn, as the story said. Among his closest friends it is understood that he is strictly "hands off" in the matter of naming his successor.

It is possible that within the next ten days important developments in the gubernatorial fight will take place. That Mayor Reed has been trying his best to develop strength in St. Louis is no secret. He has an engagement to be here at the Jefferson Club reception to Harry H. Hawes. His friends have been using every influence to build up control of the St. Louis delegation next year.

At the same time, the Kansas City situation has some dangers for Mayor Reed. A hard fight will be made on him there by politicians who feel that they have a right to try their hand at carrying the next election to the Democratic State Convention.

DISAPPROVER ABUSE OF FOLK.

Governor Dockery has told many persons that the campaign of abuse which certain papers are throwing at Circuit Attorney Falk is foolish, from both a political and a common-sense point of view. He has not failed to rebuke certain men who have spoken disparagingly of Falk in his presence.

The next election is to be carried, he has told more than one man, "and personal abuse of any Democrat by Democrats does nothing but furnish material for the common enemy. It must be stopped."

No matter who is nominated, Governor Dockery openly pledges himself to go to the polls and vote for the man of peace and vigor that have always characterized his political life in the State. He helped to bring about harmony in St. Louis when he was running for Governor, and he does not intend, if he can help it, to permit a division at the present time.

JOHNSTON TRIAL THIS WEEK.

Another Person May Be Indicted for the Murder.

REPUBLIC SPECIAL.
Briar Tree, Mo., Sept. 13.—The trial of George Johnston, charged with the murder of little Della Johnston, at Winona, June 12, will come up before the Circuit Court at Eminence this week. Although several months have passed since the deed was done, it is still shrouded in mystery. A Grand Jury has been called to investigate the matter, and it is probable that another person will be indicted. Blood stains have been found recently on the fence at the back of the garden, near where Mrs. Johnston and Charles Nesbit say they were standing when George Johnston began to call for help.

To Contest Kruger's Will.

REPUBLIC SPECIAL.
Carlyle, Ill., Sept. 13.—A suit has been filed in the Clinton County Circuit Court to set aside the will of the late Henry Kruger, who died last year at his home, southeast of Trenton. The plaintiffs in the case are Lena Kruger, F. A. and H. Kruger, relatives of the deceased, who were cut off with \$5 each. Among the defendants are the Orphans' Home of the German Methodist Church of Warrenton, Mo.; trustees, Attorneys of the G. M. E. Church of Quincy; trustees of the fund of the superannuated ministers of the G. M. E. Church of St. Louis; Mission of the G. M. E. Church of St. Louis; and the G. M. E. Church of Summerfield. The property was valued at \$14,000. It is alleged that undue influence and fraudulent practices were exercised and falsehoods resorted to in order to get the will set aside. The case will be disposed of in the November term of court.

CENTRAL TRADES PROTEST TO ROOSEVELT'S ACTION.

Reinstatement of Miller in Government Printing Office Arouses Hostility of Labor.

After a lengthy discussion, the Central Trades and Labor Union at its meeting yesterday voted unanimously to protest to President Roosevelt against his action in reinstating W. A. Miller in the Government Printing Office.

The matter was brought before the union in a communication from the Central Labor Union of Washington, D. C. The facts in the case were read and also a copy of a letter from the President to Secretary Cortright. In this letter the President's views in the matter were brought forth.

The Central Labor Union of Washington requested the Central Trades and Labor Union of this city to send a petition to the President asking him to modify his action regarding the reinstatement of Miller.

After a lengthy discussion on the subject a motion was made to protest to the President. It carried unanimously. W. A. Miller some time ago was dismissed from the Government Printing Office because of a disagreement with the Bookbinders' Union. The matter was brought before the President, who ordered that he be reinstated.

ALLEGED MURDERER CAUGHT.

Negro Had Been Chased by Bloodhounds in Georgia.

What bloodhounds and a posse were unable to do in Georgia, was accomplished by Detective Gordon yesterday when he arrested George Johnson, a negro, accused of murdering another of his own color three months ago.

The crime with which Johnson is charged, was committed, it is said, at a dance in Americus, Ga. While the festivities were at their height, Johnson, it is said, deliberately shot and killed his victim.

The negroes of Americus quickly formed a posse and with the aid of bloodhounds went in pursuit of Johnson in an effort to lynch him. The latter, it is said, fled to the swamp and evaded capture.

Detective Gordon was making his rounds early yesterday morning and spotted Johnson among a group of negroes at Seventh and Clark avenue. When questioned, Johnson became pugnacious but was promptly manacled and brought to the Central District Police Station. The prisoner refused to return to Georgia until requisition papers have been secured. Johnson admits having killed the negro, but declares that he shot under the provocation of threats against his own life. He has been in St. Louis for two months.

Considerable interest is being shown by the young men of the South Side in the educational work planned by the South Side Y. M. C. A. The school opens October 5, and will continue six months. Classes are to be organized in arithmetic, grammar, shorthand, typewriting, bookkeeping, penmanship, mechanical drawing, German and commercial law. A new venture this season will be the three special classes for working boys. Last season young men and boys were put into the same classes, but the classes have grown so that this division will be started, which will make it possible to do much more satisfactory work.

REPUBLIC SPECIAL.

Government Already Owns Largest Institution of Kind in World, but Needs Greater Facilities.

REPUBLIC SPECIAL.
Washington, Sept. 13.—Taxed by the increasing demands made by Government departments for printing and binding, the Department of Commerce will request an appropriation from the next Congress of nearly \$2,500,000, to double the capacity of Uncle Sam's printing establishment, which, even now, is the largest in the world.

It is the plan of the Public Printer to have built two immense wings conforming to the architecture of what is now known as the new office and which, if built, will surround Government Printing Office Square on three sides, with a collection of buildings equal to any in Washington.

The work of moving into the new building will be completed within a month or six weeks.

Grain and Hay Crops Damaged.

Portland, Ore., Sept. 13.—A special to the Oregonian from Spokane says: Reports of damage to the grain and hay crops are coming in from all sections of Eastern Washington, except in the Big Bend. Few districts have not materially suffered from rain. For the last two weeks rain has fallen in heavy showers nearly every day, the driest exposure extending from Walla Walla County north to the international boundary and into North Idaho. A fair estimate of the wheat harvest is that ten per cent has been cut. Much of this is stacked in the field, and is swelling from the continued downpour.

STABBED WITH BREAD KNIFE.

Waiter at Rozier Hotel Wounded by Foreman.

As the result of a quarrel between Harry Brandt of No. 219 Olive street, captain of waiters at the Rozier Hotel, and Otto Dreager, a waiter 22 years old, of No. 2314 Lawton avenue, the latter was probably fatally stabbed with a bread knife shortly after the noon hour yesterday.

The large blade of the knife entered Dreager's body to the left of the nipple and above the heart, penetrated the lung and made a gaping wound. He was taken to the City Hospital, where the wound was dressed.

According to Dreager's story, he came from the dining-room with some silver which he gave to an employee to wash. Brandt reprimanded him for making too much noise in depositing the silver and a quarrel ensued, during which Brandt called Dreager a liar. The latter struck Brandt.

A bread knife was lying close at hand and Brandt grasped it and stuck it in Dreager's body, it is said.

Brandt's boys to the left of the nipple and making other noises in violation of the rules of the kitchen and dining-room at the Rozier. He ordered Dreager to stop and the latter, instead of doing so, struck him. He then cut him with the bread knife.
